

## PRM Field Services and Support

The PRM Field Services Division provides high-level field support so your project will be handled safely and properly from start to finish. All field operations prioritize safety and are backed by the experience and expertise PRM has gained from building and supporting systems for over 30 years.

PRM Field Services goal is to ensure your systems are consistently operating at peak efficiency and offers the following nationwide services:

Turnkey Equipment and System Installation

System Startup

System Operations and Maintenance

Episodic Mass Removal Events Using PRM Rental or Leased Equipment

Training to System Operators and Field Technical Staff

Remote and On-Site System or Component Troubleshooting

Remedial System Assessments to Ensure Proper Operation and Critical Safety Mechanisms are in Place

Development of Solutions designed to Eliminate Chronic Operational Issues and Optimize System Run Time

Safety by Design: PRM understands safety—we deliver results that are safety-driven. All of our Field Personnel are factory trained on the equipment typically deployed in the industry, and are OSHA HAZWOPER certified. Each project undergoes safety evaluations including Tailgate Safety Meetings and Task Safety Analysis before any work begins.

### **\*\*Additional Services\*\***

- Testing Services
- Onsite Troubleshooting
- Pressure or Vacuum Measurements
- PID/FID
- Radius of Influence
- Monitoring
- Pilot Testing
- Treatability Testing
- Full Scale Design/Build of Custom Systems for your specific site requirements
